SEMINAR ON

How To Plan And Build A 150 Bedded Hospital

A 150 bedded hospital carries all the problems and attributes of a 500 bedded hospital but with the resources of a 30 bedded hospital. A 150 bedded hospital is a neither here nor there size. Building a new or upgrading a small hospital to a 150 bedded facility can be challenging task. From vision, mission, margins, space planning & complete project planning you have to pretend like a corporate hospital but manage like a 30 bedded hospital.

Everything they fail to teach you in Medical College

HOW TO PLAN & BUILD A 150 BEDDED HOSPITAL?

FEB 2024

11:00 AM TO 1.30 PM

A 150 bedded hospital carries all the problems and attributes of a 500 bedded hospital but with the resources of a 30 bedded hospital. A 150 bedded hospital is a neither here nor there size. Building a new or upgrading a small hospital to a 150 bedded facility can be challenging task. From vision, mission, margins, space planning & complete project planning you have to pretend like a corporate hospital but manage like a 30 bedded hospital.

PLANNING & EQUIPPING OT & ICU FOR HOSPITALS

FEB 2024

2:30 PM TO 5.30 PM

OT & ICU is the core of any Hospital. Because of its complexity, the frequency of life-threatening events, and the necessity for quick decision-making, critical care is a challenging medical specialty. An OT & ICU has to be well equipped and managed efficiently. For assuring quality and safety in patient care, relying solely on traditional experience-based training is insufficient. This seminar will focus on the best and latest of ICU & OT.

BRANDING & MARKETING FOR HOSPITALS

FEB 2024

11:00 AM TO 1.30 PM

Small & Medium hospital owners feel that branding & marketing is an expensive exercise and find it difficult to select the right marketing team & the medium. The experts will discuss appropriate and effective low-cost strategies including Whatsapp, traditional mediums, PR, Google and various Social Media marketing for hospitals.

EFFECTIVE PATIENT ENGAGEMENT

FEB 2024

2:30 PM TO 5.30 PM

Engaging with your patients is an invaluable tool in establishing trust. By improving patient engagement strategies, healthcare providers can provide better healthcare service and get lasting results for their patients. Learn more about what patient engagement is, the benefits it provides, customized engagement strategies and effective patient communication channels.

SURVIVAL STRATEGIES FOR SMALL & MEDIUM HOSPITALS

FEB 2024

11:00 AM TO 1.30 PM

Small & Medium hospitals are concerned about the competition from bigger hospitals. Small & Medium Hospitals lack bandwidth and right resources when it comes to managing their hospital. This seminar focuses on survival strategies and practical solutions for running small & medium hospitals professionally and profitably.
